Subject: Heads up: Trout Unlimited to hold press conference re: Bristol Bay next Wednesday, the 12th
Hi Folks:

Wanted you to be aware that today we learned that Trout Unlimited will be hosting a press conference next Wednesday in Anchorage re: "calling EPA to action on Bristol Bay." We expect their messages to center around asking EPA to provide a science-based forum for evaluating the potential impacts of the Pebble Mine and other proposed mining projects in the Bristol Bay watershed.

We will tune up our talking points and will expect to be asked for reaction. Might be good to have quick huddle re: how we respond when we get the calls.

Thanks.
